Third Release SCA Census 2010

Mission and Goals

In July 2009, the SCA Census 2010 Committee was formed by the Board of Directors to develop a census-level survey to help the SCA to move forward into the next decade; to identify, address and work on current issues; to gain a deeper understanding into what makes the SCA what it is today; and to delve into the reasons for joining, remaining in, and leaving the SCA.

The survey was fielded via the internet via Survey Monkey on August 1, 2010 and ran until December 1, 2010. Data coding, data cleaning, and identity security edits were performed on the 17,821 completed surveys in the 1st and 2nd Quarters of 2011.

The results of this survey will be made available in phases on the SCA 2010 Census website. The goal is quarterly releases. Our target in the next release (Winter 2011) is to offer deep dives into key topic areas such as the Same Gender Consort questions.

As we promised, the survey data will remain completely anonymous and will not be sold or shared beyond this survey's purpose. The questions we asked make it possible to identify individual respondents (for example, by looking at kingdom, awards, and offices held); therefore, we cannot keep that promise and make the raw data available. We will be releasing data summaries (this is the first of several planned summaries) as we continue analysis. We are working with experts in the field of data and identity security determine if we can find ways to make more of the data available without violating the promises we have made.

If you would like to learn more about the SCA 2010 Census, if you have questions or ideas about the project, please contact the committee at scacensus2010@sca.org.
