

### SCA 2020 Census – Part 3

This is the third and final part of the SCA 2020 Census. In this part we will ask you about negative experiences you may have encountered. You may find that there are similar questions to the first parts of this survey - these questions are repeated to include the data in the separate data sets.

Your survey responses will be strictly confidential and data from this research will be reported only in the aggregate. Your information will be coded and will remain confidential. Again, your answers in this section are stored in a separate database and are not correlated to your answers in the first two parts of the SCA 2020 Census. If you feel uncomfortable answering any of the questions in this section, you may leave them blank.

We are asking for this information to understand more clearly some of the challenges we face in keeping our organization a safe experience for everyone.

If you have further questions about the survey, you may contact [communications@sca.org](mailto:communications@sca.org). Thank you very much for your time and support. You can find the SCA 2020 Census FAQ here: <https://www.sca.org/sca-census-2020-faq>. If you have further questions about the survey, you may contact [communications@sca.org](mailto:communications@sca.org). Thank you very much for your time and support.
