 Policy Frequently Asked Questions**

Question	Answer	Category
<p>Why is the Society introducing this policy?</p>	<p>For the last number of months, the Board has received an increasing amount of feedback from Kingdoms and individuals about the option to require vaccinations or negative covid tests for participation. Given the increase in cases and the continuing possibility of the strain mutating, the Board feels that the most responsible action to take is to provide Kingdoms with a consistent framework for implementing a vaccination requirement policy if it is appropriate to their Kingdom.</p> <p>Ultimately, a higher vaccination rate is the best way to slow the spread of COVID-19, protect the more vulnerable, increase the comfort of attendees, and help us return more quickly to a 'normal' pre-pandemic style of activities. .</p>	<p>Policy</p>
<p>Why is the policy optional for Kingdoms?</p>	<p>We are a world wide organisation that spans many public health jurisdictions. This resolution gives Kingdoms the option to introduce this policy if it is appropriate to their environment and current public health advice.</p>	<p>Policy</p>
<p>Can Kingdoms choose to implement part of this policy?</p>	<p>No, the policy must be implemented in full, barring any regional legal restrictions.</p>	<p>Policy</p>
<p>Does this replace the previous policy?</p>	<p>No, this policy is in addition to previous resolutions. It outlines the framework under which Kingdoms can choose to introduce a vaccination or negative covid test requirement.</p>	<p>Policy</p>
